New York's Army of Dependents. Did you ever stop to think how large is New York's standing army of dependents, and what persons, under the commissioners of charities and correction, constitute it? According to the last report by the commissioners the total number of disabled, infirm, demented, minor or delinquent persons under public charge in the workhouse, city hospitals, almshouses, jails, insane asylums and on Blackwell's island, amounted, when the last census of them was taken, to 13,848. Of the number included in the last report 5,804 were at the time in public asylums under city care, 3,134 in city hospitals, 1,636 in the workhouse, 1,517 in the almshouse and 1,875 in jails and prisons.

This takes into account merely those under the care of the city authorities and maintained wholly at public expense. This item of municipal disbursement amounts to about \$3,000,000 a year, or \$6,000 a day. Six hundred thousand dollars a year are paid for salaries and wages, \$1,300,000 for supplies, and the rest for transportation, buildings, rentals and repairs.—New York Sun.

A BIG SALMON CROP.

This is a great year for big crops. Now it is the salmon crop that exceeds anything in the history of the country. Puget Sound is reported to be so filled with salmon, making their annual run to the sound shores and the fresh water streams for feeding and spawning, that the steamboats seem to be floating on a solid mass of fish. The paddles kill hundreds of them and are choked with their bodies. The sound steamer captains describe the run as an unbroken string of salmon thirty miles long, the water for that distance being fairly alive with them.

Neither the oldest inhabitants nor the aged Indians remember such a big salmon run. The result of the enormous run is a big reduction in prices. Usually good salmon sell for ten to twenty-five cents apiece, but now at one cent each the market is glutted with the finest quality of fish. At Port Williams a few days ago two casts of a seine netted over 8,000 fine salmon. Everybody is fishing.—Chicago Herald.

A PLAGUE OF BUTTERFLIES.

Munich has been invaded by an enormous army of butterflies. Millions of the species known as "nonnenschmetterlinge" attacked the city a few nights ago, attracted, as is supposed, by the brilliancy of the electric lights. The walls of the houses before which electric lamps were fixed were literally covered with the butterflies. In several places they forced their way through the doors and windows and fluttered around the lights. In the Cafe Kaiserhof and the Loewenbrau-Keller the intensity of the light fascinated such swarms of the butterfly "nuns" that the devotees of King Gambrinus found their hats and clothes so thickly coated with the intruders that they hurried out and left the invaders in possession. In some places the lamps were darkened by the mass of butterflies clinging around them.—St. James' Gazette.

WHERE CAPS ARE MADE.

New York furnishes headgear for nearly nine-tenths of the American heads that wear caps. Perhaps the inhabitants of this town think they have seen a good many yachting caps within the past few weeks, but as a matter of fact the vogue of the yachting cap has only just begun. It came from Europe, took the Atlantic coast by storm and is now sweeping westward toward the Pacific. Thousands of girls that never saw navigable water will presently be looking sainly forth from beneath this sailor headgear. Comparatively few caps of any sort are sold in the east. Nearly all of them go beyond the Alleghenies and a few are sent as far as the Sandwich islands.—New York World.

FOUND HER LOVER IN PRISON.

As Miss Nichols, of Buffalo, was visiting the penitentiary at Lincoln, Neb., in company with a relative, who is one of the executive officers of the state, the young lady uttered a scream on catching sight of one of the convicts at work in the harness shop. "Why, Mollie!" he ejaculated. She was about to mention his name in the same exclamatory manner when he suddenly said: "Molly, don't mention my name or you will betray my identity." The fellow is known as Frank Carroll, and is doing time for forgery. It has been learned that he was engaged to marry Miss Nichols, and came west to make his fortune, with the above results. The young lady is prostrated.—Cor. St. Louis Republic.

A PREHISTORIC FIND.

A mound containing the skeletons of several prehistoric people has been discovered on a farm near Carthage, Ills. The skeletons lay in all conceivable positions, and are supposed to be those of warriors who fell in battle. It is believed that the farm is the site of an ancient battlefield. The skeletons are of unusual size and the teeth in the skulls are larger than those of ordinary human beings. The authorities of Carthage college have received permission to explore the cave, and a noted antiquarian has been sent for to aid in the investigation.—Philadelphia Ledger.

Maurice Bernhardt, who is traveling with his wife in this country, is a rather handsome specimen of the Frenchman, with a tall, wiry physique, a clear olive complexion and a small dark mustache. He resembles his mother in the prominence of his features and is as exquisite in dress.

THE JUDGMENT.

Thou hast done evil
And given place to the devil;
Yet so cunningly thou conceallest
The thing which thou feelest,
That no one canst feel it,
Eaten himself deuilest it.
Go where it chooseth thee,
There is none that accuseth thee;
Neither for nor for her
Will the wrong uncover;
The world's breath raiseth thee,
And thy own past praiseth thee.

—Dora Reed Goodale in Independent.

THE SCALES ON A HAIR.

If you look at a human hair under the microscope you will find that its surface is formed of successive overlapping scales. The bristles of the hog bear much resembles to the human hair, though their diameter is greater and the tile-like scales are much finer. Sheep's hair has much coarser scales. It is owing to the existence of these scales that a schoolboy is able by a peculiar process to tell which is the tip and which the other end of a hair, rolling it between his finger and thumb. Thus manipulated, the hair always travels in the direction of the base, because the edges of the scales prevent it from going the other way.—Interview in Washington Star.

COINCIDENCE IN PHRASES.

So much interest is taken in the origin of phrases that the literary editors of most of our large dailies are kept on the alert to answer the inquiries put to them. There is just as much interest taken in the coincidence of ideas and the similarity in expressing them. Not a few of such instances have been attributed to direct appropriation, and sometimes justly so, but more frequently without taking into consideration that the same ideas, comparisons and illustrations may occur to different writers. It must not be forgotten, either, that there is "nebulosity" condition of the brain that may lead to unconscious reproduction.—Philadelphia Ledger.

SCALLOPS IN MAINE.

A big scallop from Mount Desert has a diameter of nine inches, and the edible portion will weigh ten ounces. How long the scallop takes to grow before reaching maturity does not seem to be known, but it is believed to be of ago at its fifteenth year. The mollusk, with other pectens, is not chained like the oyster to the rock. It enjoys locomotion. —New York Times.

WHERE ONE'S SMOKERS ARE USEFUL.

Among some of the Malay tribes any man who may suddenly meet a relative or intimate friend greets him by snuffing all around him, very much as a big house dog might do with a strange visitor.—David Ker in New York Epoch.

FRIDAY . . . OCTOBER 30, 1891

HARRISON'S SILVER POLICY.

President Harrison takes occasion on the eve of the elections, in which silver is an issue, to send out through the Associated Press, a manifesto to the gold men. He tells them that they need not be seriously disturbed by reports of the attitude of the Administration on the silver question has been changed. He will not harbor a thought of any plan even hinting in the direction of free coinage, unless there is some prospect of an international agreement on the subject. At present there is not the slightest indication of such an agreement, or anything preliminary thereto.

It may be stated as a settled fact, that the Administration will do all in its power to prevent free coinage. This means that if Congress passes a free coinage measure Mr. Harrison will promptly veto it. The House of Representatives may pass the bill over the veto, but it is doubtful if the Senate will do so.

This, however, may depend upon the result of next week's election. In every State in which an election takes place, except Massachusetts, the Democrats have declared for bimetallism, and in each and all of those States, except Colorado, the Republicans have declared against it.

If the elections are favorable to the Republicans the President will be more obstinate than ever in his opposition to silver. On the other hand should the Democrats make a strong showing and then votes and those of the People's party, who are also for free coinage, a bill to remonetize may be passed this Winter over the President's veto. As such a gratifying result and one that would so greatly benefit Nevada is improbable, the free coinage question will doubtless be an issue in the next Presidential campaign, and in fact the only National issue that will be of any great importance to Nevada.

QUESTIONING QUAY.

Senator Quay, the great Pennsylvania boss, has been questioned as to a certificate of deposit for \$5,877 from the Keystone bank to the late Treasurer Bardsley of Philadelphia, who is now repenting his misdeeds in the Penitentiary. The certificate is made payable to Senator Quay by Bardsley. The great boss said his recollection of the details of the transaction are indistinct, but he is satisfied the date of the certificate is a forgery. He says he gave a note to a gentleman representing the Republican City Committee of Philadelphia for \$9,000, upon which to ruse that amount of money for campaign purposes. He does not know what disposition was made of the money rused on the note, but he thinks the Bardsley certificate was for the amount of the note less the discount.

It was generous in the truly good Mr. Bardsley, to apply the public funds, of which he was custodian, to the payment of a note given by Boss Quay, for campaign purposes, but as the public were paying the debt, he should have given the boss the full amount, as under the circumstances it looked small to deduct \$13 for discount.

An election is to be held in Pennsylvania next Tuesday the people will have opportunity to express their opinions of "bossism" at the polls. The farmers are said to be in open revolt against it but it is feared it has too firm a hold in the cities and manufacturing center to be exterminated by the tillers of the soil.

THE TROUBLE WITH CHILI.

Some sailors, from the American man-of-war Baltimore, ashore at Valparaiso, unarmed, were attacked on the streets by armed men, one of them number killed, several wounded and others arrested and for some time held by the authorities. For this outrage, the United States demands prompt reparation, with the intimation that if not promptly made, the United States will seek redress by force. It is said that Minister Egan has received an unsatisfactory response from the Chilean Junta to the demands of this Government, and the crew of the Baltimore is practically boycotted at Valparaiso. This is discredited in navy circles as no word has been received at the Navy Department from Commodore Schley reporting any new phase of the situation.

If the Chilean Government is disposed to maintain friendly relations with the United States, it should promptly investigate the outrage on the American sailors and bring the offenders to justice. If the attack on the sailors was unprovoked surely the Chilean authorities cannot sanction it, or make no effort to arrest and prosecute the murderers. It is possible the Chilean authorities were no more responsible for the attack than the United States authorities were for the killing of several Chinese at a Wyoming coal mine, or the lynching incident at New Orleans, and if they are not they should not hesitate to say so. The United States Government certainly does not want a war with Chile and the Chilean Government ought not to go to war with the United States. The trouble between the two countries can be easily and speedily settled if the Chileans want it that way and they surely ought to have had enough of fighting to satisfy them for a season.

The taxpayers of Lincoln county, in mass meeting assembled, adopted resolutions recommending the county officers to collect the taxes as levied and assessed by them and to ignore the action of the State Board of Assessors, as that of an unauthorized and unconstitutional body. This is the first time in the history of the State that the people resolved to nullify the proceedings of a board created by Act of the Legislature. The Act is unpopular throughout the State and it is by no means certain that the corporation, at whose bidding the Act was passed, do not now regret the work of their henchmen.

BY TELEGRAPH!

News of Importance From Home and Abroad.

Chilean Affairs.

Special to the Journal
WASHINGTON, October 29.—A cipher cablegram was received from Minister Egan this morning, and it was nearly noon before it was translated and laid before the President. An hour afterwards messengers were despatched to Secretary Blaine and Secretary Tracy requesting their presence at the White House. The Secretaries promptly responded to the President's summons. Secretary Tracy stayed an hour at the White House and then returned to the Navy Department, but had not been there long when he was recalled. Naturally these movements gave rise to all kinds of more or less wild speculations as to the nature of Egan's dispatch, and the intentions of the Government. Soon after 6 o'clock an official statement of the contents of Minister Egan's dispatch was made public. It read as follows: The Department of State received a telegram this morning from Minister Egan, dated Santiago, October 28th, in which he gives the following as the reply of the Chilean Government to the President's telegram of October 23d, asking reparation for the recent murder of American sailors in the streets of Valparaiso. The Minister of Foreign Affairs replies that the Government of the United States formulated demands and advanced threats, that, without being cast back with acrimony, are not acceptable, nor could they be accepted in the present case or in any other of like nature. He does not doubt the sincerity, rectitude or expediency of the investigation on board the Baltimore, but will recognize only the jurisdiction and authority of his own country to judge and punish the guilty in Chilean territory. He says the administrative and judicial authorities have been investigating the affair and that judicial investigation under the Chilean law is secret, and the time is not yet arrived to make known its results. When that time does arrive he will communicate the result, although he does not recognize any other authority competent to judge criminal cases than that established by the Chilean people. Until the time arrives to disclose the result of the investigation he cannot admit that the disorders in Valparaiso or the silence of his department should appear as an expression of unfriendliness toward the Government of the United States, which might put in peril friendly relations between the two countries. Up to the hour when the above statement was made public, no reply had been made to it. What will be the nature of Secretary Blaine's reply is altogether a matter of conjecture. The most plausible theory advanced is that the suggestions courteously and diplomatically conveyed in acting Secretary Wharton's dispatch, that this Government had no doubt the investigation would be made and reparation afforded, will now be renewed in the shape of a stern and formal demand for some immediate assurance of proper action on the part of the Junta, and if these are not forthcoming Minister Egan will take passage on the Baltimore for the United States, thus severing the diplomatic relations between the United States and Chile.

Charged With Libel.
Special to the Journal.

SACRAMENTO, October 29.—The Grand Jury to day returned an indictment against W. M. Reed, a farmer who resides near Flora in this county, charging him with libel in the Farmers' Alliance meeting a few weeks ago.

Reed in a vigorous speech declared that Messrs. Black, Miller and Jenkins, members of the Board of Supervisors, had received fifteen thousand dollars for their votes to kill certain ordinances which were in opposition to liquor dealers. He quoted as authority the proprietor of the Sacramento wine, who, he declared, had told him he collected money from the saloon keepers. When approached by the Supervisors the wine maker denied having made such a statement. Reed was then arrested on a charge of libel and released on \$1,000 bail.

Activity at Vallejo.
Special to the Journal.

VALLEJO, Cal., October 29.—There seems to be considerable extra activity about the vessels at the yard. Naval officers are

forbidden to give any information regarding the movements of vessels. A telegram came to day asking for an estimate of the cost of preparing the Mohican for sea duty at once, within two weeks, and it is expected that a large force of men will be immediately set to work upon her. The monitor Comanche, though designed for harbor defense, can be put to sea in a few days. The Monadnock will not be in condition for six months yet. Few vessels here are available. All available vessels are up North, at Honolulu or China.

War Vessels Moving.
Special to the Journal.

WASHINGTON, October 29.—The United States steamer Yorktown arrived at Bahia, Brazil, to-day, she will stop a few days to coal, then proceed to the Pacific Station, touching Chili in about three weeks.

The United States steamer Petrel to-day was ordered to sail immediately from New York for China over the Suez canal.

The Tug of War.
Special to the Journal.

SAN FRANCISCO, October 29.—In the international tug of war to-night, Denmark beat America in 24 minutes and 23 seconds, and Scotland beat Germany in 23 minutes and 43 seconds. Scotland has not yet been defeated and is now sure of the first prize. Denmark has been beaten once and America twice.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines.

Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's.

Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered."

Peculiar in its "goodname" at home, there is now more sold in Lowell, where it is made, than of all other blood purifiers.

Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly.

Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine,

INTERESTING EXERCISES.

Programme at the High School To-Day.

At the High School this afternoon the history of Nevada, in brief, is to be rehearsed. Mrs. M. S. Doten will read an original poem on Admission Day, and there will be several songs. The exercises, altogether, will be interesting to all who may attend, and especially profitable to the young people. A knowledge of the early history of our own State is of more importance in our schools than the history of Greece or Rome—will do more to stimulate patriotism and to make useful and practical citizens of the State. The exercises will begin at 1 o'clock, and the public are cordially invited to attend.

ODD FELLOWS AT WADSWORTH.

A New Lodge Instituted—A Grand Ball and Banquet

As announced by a dispatch in yesterday's JOURNAL Wadsworth Lodge No. 33, O. O. F., was instituted. As it was the only new lodge of the Order instituted in the State for several years it was made the occasion for a general holiday by members of the Order. A special car was chartered to carry the Virginia City and Reno delegations to the prosperous village on the lower Truckee.

Jacobs, G. W.; L. Guggenheim, G. S.; J.

J. Becker, G. T.; N. Hammerman, G. M.

H. P. Brown, G. C.; R. D. Leeper, G. I.

G. R. W. Linville, G. O. G. Twenty-four

new members were admitted to the Lodge.

DANCE AND BANQUET.

In the evening a grand ball was given in

Union Hall, which was largely attended.

The fair sex was well represented, over a

hundred ladies gracing the scene with their

presence. The music by the Wadsworth

Orchestra was good, and the ball one of the

most enjoyable of the many pleasurable

events of that character, for which Wadsworth is noted. The town boasts, and

justly too, of the beauty and number of its

women. It is said to have a greater num-

ber of ladies in proportion to the resident

population than any town in Nevada, and

they are adept in the terpsichorean art.

The banquet at the Wadsworth Hotel was

all that the devotees of Epicurus could de-

sire. The board was loaded with the choicest

viands, prepared in the highest

style of the culinarian art.

The visitors expressed themselves as be-

ing highly pleased with the royal reception

accorded them and unanimously tendered

a vote of thanks to the people of Wad-

sworth.

NEVADA APPLES.

A Large Crop and Low Prices.

Washoe county has this year grown not

less than 30,000 boxes of apples, which in

quality are probably not excelled by those

raised at any other part of the coast. First

quality apples are not grown in any region

where snow does not fall. Hence, apples

of the semi-tropical regions of California

are inferior in flavor and in the essential

property of keeping well to those of this

section. The rocky farms of New England

have long been celebrated for producing

the finest apples of America, but the

orchards of the Sierras may ere long con-

test this palm. At the present time the

farmers are somewhat blasé over the prices

offered for their fruit. But it is certain

that prices will improve shortly. There is

a surplus just now, and the local market is

overstocked. No effort has yet been made

to ship any below, in spite of the fact that

there is a failure of the apple crop in Cali-

fornia, and best quality apples are selling

at wholesale at \$1 25 in San Francisco. It

is probable that before another month farmers

will be able to unload a portion of all

of their surplus crop at good prices to Cali-

fornia buyers.

Paraffine in Diphtheria.

Mr. A. M. Sidney-Turner, Surgeon to the

Gloucester County Infirmary, informs the

Lancet, in reply to inquiries, that he

has treated thirty cases of diphtheria

(children and adults) with paraffine, and

has had the satisfaction of seeing every one

recover. His plan is to ask for the ordinary

paraffine used in lamps, and, having

scraped off the diphtheritic patch, to ap-

ply the paraffine every hour to the throat

(internally) with a large camel's hair

brush. As a rule, the throat gets well in

from twenty-four to forty-eight hours, and

with improvement in the throat the paraffine

is applied less frequently, but continues

its use for two or three days after the

complete disappearance of the patches. He speaks definitely as to the therapeutic

effects, but is unable to state what the

chemical action of paraffine on the diphtheric

membrane is; probably the hydro-

carbons in the liquid exert some powerful

influence on the membrane.

The Depot Restaurant.

Opposite the Passenger Depot, is,

since Mr. Wildrick assumed manage-

ment of the same, run in first-class style.

None but respectable help employed.

Everybody speaks about it and says,

"What a change." Commercial men say

they can get as good a meal there, si

never changed hands, as can be had in San

Francisco.

LINCOLN COUNTY PROTESTS.

BUSINESS, LOCAL AND NEWS ITEMS.

The People in Favor of Ignoring the Action of the State Board of Assessors.

The Pioche Record says the people of Lincoln county held a meeting at Pioche on the 21st and expressed their opinion of the action of the State Board of Assessors and Equalization in the following resolution which was unanimously adopted:

RESOLVED. That whereas, the State Board of Assessors and Equalization has shown by its action in relation to the assessment of the property in this county, that it did not know what it was doing, and could not gain the necessary knowledge to inform itself, and that such facts show the unconstitutionality of the Statute by which such Board was created, and that the notice that this county had of the action of said Board was such—being only forty-eight hours—that this county could not appear before said Board and contest the same. We deem it our duty to recommend and instruct the officers of our county to proceed to collect the taxes as levied and assessed by them, and utterly ignore the action of said State Board of Assessors and Equalization, as being an unauthorized body and acting in an unauthorized manner.
